THE ADVANTAGES OF BIANCHI INDUSTRIAL'S SERVICE

**Simplified supplier management**

As a specialized industrial distributor, we offer the best products from various brands, allowing you to reduce your supplier list and optimize operations.

**Seal identification**

If you are unsure about the specifications of the seals, we can help! Whether you have the manufacturer's code or just a photo, measurements, and application details, we can identify the product you use and provide replacements with even higher performance where available or necessary.

**Personalized consulting service**

Our specialized technicians are ready to collaborate with your technical department to select the most suitable solutions for your critical applications, ensuring the success of your projects.

MATERIALS

We can offer you seals from leading national and foreign manufacturers, or custom-made, in the following materials:

- NBR
- FKM
- VMQ
- EPDM
- EPDM PEROX
- HNBR
- FFKM
- FVMQ
- NBR low temp
- FEP
- RUBBERIZED FABRIC
- SBR
- ACM
- Virgin PTFE
- PTFE + bronze
- PTFE + carbon graphite
- PTFE + carbon fibers
- PTFE + glass MOS2
- EKONOL
- POLYETHYLENE
- POLYESTER RESIN
- PHENOLIC RESIN
- ACETAL RESIN (POM)

USAGE FIELDS

The product range includes seals for **static, dynamic, and rotational use**, as well as **custom-made seals**.

AN EXCELLENT PARTNER

Bianchi Industrial collaborates with leading brands and its significant experience, positioning itself not only as a supplier but as a Customer Partner to offer innovative and cutting-edge solutions, with a complete range including standard and customized components.

HIGH-TECH AND HEAVY-DUTY SEALING SYSTEMS  
SPECIALIZATION CENTER IN VICENZA

For sealing systems, Bianchi Industrial has dedicated a specialization center that can offer specific focus on the sealing systems sector, central to every industry field.

- Dedicated technical support
- Custom-made seals
- Personalized kits
- Wide choice of profiles and materials
- Rapid prototyping services
- 3D printing production with technopolymers
- Same day shipping

MATERIALS AND OBJECTS IN CONTACT WITH FOOD

A CERTIFICATION FOR QUALITY

**Bianchi Industrial, sensitive to the health and protection of consumers, has adhered to the possibility of providing MOCA certification for products intended for the food industry.**

We offer our customers the opportunity, upon request, to purchase a product for the food industry that meets the strictest national and international regulations.

BRAND PARTNERS

BEYOND QUALITY, THE CERTAINTY OF THE BRAND

BIANCHI ORIGINAL COMPONENTS - B.O.C.

Bianchi Industrial has always been committed to fighting counterfeiting alongside leading market manufacturers. The B.O.C. (Bianchi Original Components) seal, applied to all shipments, guarantees the Client the certain origin of the components supplied through the entire distribution network.

**The B.O.C. process certifies the authenticity of high-precision and standard precision components** that are purchased directly and solely from their world-leading suppliers in quality, research, technological innovation, and sustainability.

The Bianchi Industrial service can be summed up in one statement: **“correct selection, correct application, brand certainty”**, in favor of safety and total transparency for the end user.

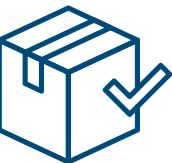

**1.** **We purchase only from trusted source**

The manufacturer places an identifying code on the goods. Bianchi Industrial only purchases from the source and from official distributors who can prove they have purchased directly from the manufacturer.

**2.** **Accurate checks**

Bianchi Industrial systematically checks the codes of every received good and verifies its content. Only original components can enter the logistics hubs.

**3.** **Seal**

Only at the end of the process, Bianchi Industrial places the seal on the goods that have passed all checks, offering the Customer the certainty of what they are purchasing.
